INTEGRA Technologies Edmonton, AB, Canada

### **Employment Type- Full-Time**

Join the INTEGRA team as a **Leak Detection and Repair (LDAR) Technician** with our Western Canada Environmental Services Division.

#### **Responsibilities include but are not limited to:**

- Perform inspections, employing industry protocols on pressurized piping systems within a variety of Oil & Gas sectors.
- Accurately collect data associated with inspection protocols.
- Ensure equipment is maintained and functioning in accordance with manufacturers specifications, and Integra operating procedures and quality controls daily.
- Troubleshoot instrument performance when necessary.
- Identify deficiencies on process piping, employing a variety of inspection methodologies and the latest technology, acoustics, M21 and infrared video cameras.
- Work collaboratively with the team to meet job scheduling timelines and target completion dates.
- Perform routine calibration and instrument troubleshooting.
- Maintain testing records in accordance with QA/QC and client protocol.
- Provide daily feedback to the LDAR Lead Technician. (e.g., findings, observations, safety concerns)

#### **Our ideal candidate will have:**

- A safety mindset, with demonstrated safe work habits, adherence to safety regulation and good judgement.
- FLIR Camera experience preferred
- A mechanical aptitude and dexterity when using tools, equipment, and instruments.
- Self-motivation and the ability to work independently.
- Strong communication and customer service skills.
- Good documentation skills, with an attention to detail.
- Proficiency in the use of a computer and Microsoft applications.
- Experience in the Oil & Gas field.
- A valid Driver's license in good standing.

- **Ability to lift 50lbs.**
- **Ability to work at permanent elevated platforms.**
- Manual dexterity of walking, climbing, bending and crouching.
- Supervisor candidates require a minimum of 3-5 years of refinery or oil sands experience.

**Working Conditions:**

- Successful candidates will be required to complete a background check, including criminal record, drivers abstract and A&D testing.
- Shifts will include 10 days on and 4 days off, working in remote locations. The 10 days on will include the ability to work Monday through Sunday without a break in service. Hours may vary based on work scopes available.
- Travel for this position is required, transportation, lodging and accommodation will be provided.
- Work outdoors in all weather conditions.

Salary: Wage will be determined based on experience.

**Core Purpose:** We detect and prevent leaks to ensure a cleaner and safer world.

**Mission:** Certainty of Outcome through ZERO Leaks, ZERO Accidents and ZERO Delays

**Core Values:** Integrity, Respect, Safety, Quality, Commitment

**Organizational Culture:** Accountability; Performance; Bias to action; Willingness to make mistakes and learn from them; People feel safe and listened to.

All INTEGRA Employees are expected to:

- Consistently demonstrate INTEGRA's Core Values.
- Promote and adhere to INTEGRA's safe work practices and procedures (including physical and psychological safety).
- Make their best contribution to the business and the interest of INTEGRA without any conflicts of interest.
- Diligently and to the best of their ability fulfill the responsibilities of their position.
- Comply with the policies of INTEGRA and all applicable laws.
- Perform any other modified or delegated duties as reasonably assigned.
